

RAIDER 2

RAIDER 2 HARNESS CONTAINER

The RAIDER 2 Harness/Container is the newest innovation in tactical parachute harness systems. It is designed specifically for improved comfort and versatility. Its Harness Container is sized to fit Airborne Systems Intruder 360 and HG-380 Hi Glide Canopies. The RAIDER 2 has met TSO C23d standards to an All Up Weight of 555 lb (252 kg) when used with the Intruder360 reserve canopy.

The RAIDER 2 provides:

- Greater comfort
- Versatile deployment methods with spring loaded pilot chute, hand deploy pilot chute (optional), or static line
- Single pin reserve with clear inspection window
- Attachment points for the Airborne Systems Patent Pending Parachutist Seat
